

***10th International Voluntary WorkCamp
organized by TERRE & NATURE association
from the 16th to the 28th September 2008***

“This is an environmental workcamp with the philosophy and pedagogy of voluntary work. This is rescue and protection of an old mine and its entrance. Volunteers must be interested in nature and be concerned by respect of environment: any pollution or destruction wouldn't be allowed.”

INFO-SHEET

Location : The camp is located in the Beaujolais's mountains, in PROPIERES, a village in the department of Rhône (middle of France), near of Roanne (53 km) and in the north-west of Lyon (75km.)

Dates : From Tuesday 16th September to Sunday 28th September 2008.

Travel : We will be taking the volunteers at the train station in CHAUFFAILLES, during the day of 16th September. But, the volunteers call mobil phone of Terre & Nature as soon they arrived.

Another Volunteers can arrive directly at AZOLLE.

Accommodation : All the volunteers will be lodged in town lodging of the hamlet of AZOLLE, from 1.3 km of PROPIERES.

Group life : All the participants must have a responsible behaviour and participate in all necessary tasks for the group : washing-up, cooking, cleaning...

The Workcamp : This is an old lead mine situated at 1,6 kms from the village and accommodation. Volunteers will go there in the morning and come back in the afternoon by walk or by car.

The work will consist in taking off earth at the entrance of the mine. And after, will building a short gallery and walls for to protect the mine against the future landsliders.

The repair of a protection in the middle of the mine will also be envisaged, the cleaning of the ground and the removal of the possible waste

Pedagogical aims and entertainments : We planned to go for forest and nature's walks, excursions in middle mountains, and discover the surrounding natural and geological sites.

It's possible to visit one or several mines of the Beaujolais's mountains near PROPIERES and see what was made for their conservation.
